RESIDENTIAL BUILDING PERMIT APPLICATION PROCEDURES

STEP #1

Planning & Zoning Requirements:

1. A copy of your recorded warranty deed, or lease agreement showing your name and legal description included with your application.
2. Compliance with (a) Zoning and (b) Subdivision, zoning can be found under Chapter 17.02 of our municipal code.
3. Complete the plot plan as directed on the form provided. Show all setbacks from structure to property lines. (A survey may be required to verify setbacks).

STEP #2

Before the Application is Accepted, the following approvals may need to be obtained:

1. Washington Department of Transportation, Environmental Protection Agency, Department of Environmental Quality, Fire Department, and City Utilities and Public Safety.
2. Contractor's License number and active City business license. Contractors report local tax to the City of Newport using Code: 2605.

STEP #3

Building & Safety Requirements:

1. Make sure all non-shaded areas on the application are complete and provide clear directions to the building site.
2. After reading the notice at the bottom of the permit page the owner will sign & print their name and date the application.
3. Two complete sets of **STAMPED ENGINEERED** construction plans are required for **Residential Projects**. All plans must be drawn to scale showing the following information:
 - Elevations of all sides of the structure.
 - Floor plans for all floor levels, showing location of smoke detectors, size & location of windows & doors.
 - Footing and foundation details (show sizes and rebar schedules).
 - Complete framing details showing all structural components (header and beam sizes, window schedules, insulation & R-values are required on all plans).
 - Typical cross-section of the structure showing elevations of the interior.
 - Roof details/truss specifications – **provide STAMPED** engineered truss specifications (Note: these can be obtained from your truss manufacturer).
 - Dimensions must be clearly indicated on the plans.
 - Plans for all Pole Buildings **must** be stamped by a Washington Licensed Architect or Engineer. NOTE: One set of the approved plans will be stamped by our department and **MUST remain on the job site at all times**.
4. Your application will be reviewed for compliance with Local, State, and Federal Codes. (Corrections may need to be completed prior to final approval).
5. An Energizing Permit allowing connection of electricity to the building will be issued after a completed building permit is filed with the City.
6. All Applications must be filled out, signed, and submitted with required approvals and information to the City of Newport.

******INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED******

STEP#4

STATE REQUIREMENTS:

1. A State Electrical permit may be required.
2. For more information contact the Washington Department of Labor & Industries: (509) 324-2600 to purchase permit online visit: www.lni.wa.gov (trades & licensing, electrical, permit fees & inspections).

INFORMATION REQUIRED ON PLANS FOR A BUILDING PERMIT

SUBMIT 2 (TWO) sets of plans drawn to scale and of sufficient clarity to indicate the location, nature and extent of the work proposed.

Plans shall show the following:

PLOT PLAN: Show property line boundaries, building to be constructed and setbacks from building to all property lines. Show road access to the building as well as any standing water or waterways. Show all existing buildings. Indicate **North** direction on plan.

FLOOR PLAN: Fully dimensioned floor plan showing all bearing and non-bearing partitions at all floor levels, size of headers, square footage of proposed structure, room sizes, size and location of all doors, and windows, plumbing fixtures, heating and cooling equipment, smoke alarms, stairs, decks, covered porches, patios, etc.

ELEVATIONS: Show all sides of proposed structure including windows, doors, roof pitch and type of roofing, finished grade around building, decks, and exterior stairs.

FOUNDATION PLAN: Show sizes of footings, foundation wall, location and size of reinforcing steel, slabs on-grade and type of soil.

FLOOR FRAMING PLAN: Show size, direction and spacing of floor joists at all levels of structure including stairwell openings, bearing beams in floor system, thickness and type of floor sheathing. Show all manufactured members with their size and series number from the manufacturer.

ROOF PLAN: Show size, direction and spacing of all roof framing members. If using trusses, submit a truss framing plan. **Engineering is required for all roof trusses.** Also indicate thickness and type of roof sheathing.

CROSS-SECTION: Typical building cross-section should show a complete section through the building showing all basic framing details from the top of the roof assembly to the foundation. Also, include interior elevations showing any and all interior bearing points.

(COMMERCIAL, INDUSTRIAL AND PUBLIC BUILDINGS TO BE WET-STAMPED BY AN IDAHO-LICENSED ARCHITECT OR ENGINEER).
