

Cooperative Agreement For Maintenance of State Highway

NP2018-19

THIS AGREEMENT, made and executed in duplicate this 6th day of August, 2018, by and between the IDAHO TRANSPORTATION DEPARTMENT, hereinafter called the "State," and the CITY OF NEWPORT, WA, hereinafter referred to as the "City."

WITNESSETH:

1. RECITALS

The parties desire to provide for the maintenance of state highway routes within the City as provided in *Idaho Code, Section 40-310(5)*, and to arrange herein for the particular maintenance functions to be performed by the City and those to be performed by the State and to specify the terms and conditions under which such work will be performed.

2. AGREEMENT

This agreement shall supersede previous Cooperative Maintenance Agreements. In consideration of the mutual covenants and premises herein contained, it is agreed that the City will perform such maintenance work as is specifically delegated to and the State will perform those particular functions of maintenance delegated to it on the state highway routes or portions thereof as hereinafter described under Sections 13, 17, and 17-a hereof or as said sections may be subsequently modified with the written consent of the parties hereto acting by and through their authorized representatives.

3. MAINTENANCE DEFINED

Maintenance is defined as follows:

- a. The preservation and keeping of right-of-way and each type of roadway, structure, and facility in the safe and usable condition to which it has been improved or constructed, but does not include reconstruction or other improvement.
- b. Provisions as necessary for the safety and convenience of traffic and the upkeep of traffic control devices.
- c. The general utility services such as roadside planting and vegetation control.
- d. The special or emergency maintenance or repair necessitated by accidents or by storms or other weather conditions, slides, settlements, or other unusual or unexpected damage to a roadway, structure or facility.
- e. Upkeep of illumination fixtures on the streets, roads, highways, and bridges, which are required for the safety of persons using the said streets, roads, highways, and bridges.

4. DEGREE OF MAINTENANCE

The degree and type of maintenance for each highway or portion thereof shall mean doing the work and furnishing the materials and equipment to maintain the highway facility herein described in a manner as near as practicable to the standard in which they were originally constructed and subsequently improved.

5. LEGAL RELATIONS AND RESPONSIBILITIES

Nothing in the provisions of this agreement is intended to affect the legal liability of either party to the contract by imposing any standard of care respecting the maintenance of state highways different from the standard of care imposed by law.

It is understood and agreed that neither the State, nor any officer, agent, servant, or employee thereof is responsible for any damage or liability occurring by reason of anything done or omitted to be done by the City or in connection with any work, authority or jurisdiction delegated to the City under this Agreement for Maintenance. The City, its officers, agents, servants, or employees, shall not be responsible for any damage or liability arising in connection with work to be performed by the State which is not otherwise delegated to the City.

6. HIGHWAY

Highway, as used herein, includes the entire right-of-way which is secured or reserved for use in the construction and maintenance of the traveled way and roadsides as hereinafter described.

7. ROADWAY

Roadway means the area between the inside face of curbs or the area between the flow lines of paved gutters; otherwise, the entire width within the highway which is improved for vehicular use including improved shoulders and side slopes, if they exist.

8. IMPROVED ROADSIDES

Improved roadside is the area between the roadway, as defined under Section 7, and the right-of-way boundary lines, including curb and sidewalk.

Curb relates to a timber, concrete, asphalt, or masonry structure separating or otherwise delineating the roadway from the remainder of the highway and shall include paved gutters. Medians that separate the roadways for traffic in opposite directions are considered a part of the improved roadsides. Sidewalk applies to the paved or otherwise improved surface area between the face of curb or edge of roadway and right-of-way boundary, including paved entrances or driveways.

9. UNIMPROVED ROADSIDES

Unimproved roadsides relate to the area between the roadway and right-of-way boundary wherein curbs and sidewalks do not exist.

10. BRIDGES

Bridges are structures that span more than 20 feet measured between abutments along the centerline of the street and multiple span structures where the individual spans are in excess of 10 feet measured from center-to-center of supports along the centerline of the street. All other cross-drainage structures shall be classified as culverts.

11. TRAFFIC CONTROL DEVICES

Traffic control devices include all signs, pavement markings, and highway illumination placed on or adjacent to the street or highway for the regulations, guidance, warning and aid of pedestrian and traffic movement thereon. Traffic signals will be treated under a separate agreement.

12. FRONTAGE ROADS

Frontage roads are roads constructed on either side of the highway to provide authorized road access to adjacent properties in lieu of access directly from the highway.

13. ROUTINE MAINTENANCE

Routine maintenance to be performed on the roadway or roadsides shall consist of such work as patching, spot sealing, crack sealing, snow plowing, snow removal, sanding, care of drainage, upkeep and repair of bridges,

culverts, curbs, benches and sidewalks, street sweeping and cleaning, repair of damage and cleaning up after storms and traffic accidents, control of roadside vegetation, care of landscaped areas, planters, trees or other ornamental plantings, and upkeep and operation of traffic control devices, all in the manner as hereinafter specified.

a. Roadway

- (1) Surface Repair: The patching of holes, depressed areas, spot sealing, undersealing, etc.
- (2) Crack Sealing: The cleaning, filling and sealing of cracks in pavement with sealing compounds.
- (3) Sweeping and Cleaning: The removal of dirt or litter normally coming onto the roadway from action of traffic or from natural causes, such as flood and storm debris.
- (4) Snow Removal: The removal of snow from the roadway by plowing, sweeping, and hauling and shall include applying sand and/or salt when required. The hauling away of snow need only apply on those highway sections where snow storage is limited or at such times when accumulations become greater than storage area capacity.
- (5) Utilities: Including manholes, boxes or other appurtenances shall be maintained by their owners.
- (6) Storm Sewers: Shall be kept clean and free from debris; traps and sumps cleaned as required after each storm.
- (7) Culverts: Shall be kept clean and free from debris; inlets and outlets shall be kept free of debris and growing grass or brush.

b. Bridges

Shall be inspected in accordance with the national inspection standards of *U.S. Code, Section 116(d), Title 23*, administered by the State. Bridges designed to AASHTO H-20 or better standards must be inspected on a frequency not to exceed two years. Bridges that are posted for restricted weight limits and/or designed to AASHTO HS-15 or less will be inspected on an annual basis. Inspections are to be accomplished by a qualified inspector. The State's district engineer shall be immediately notified of major defects. See current edition of *AASHTO Manual for Maintenance Inspection of Bridges* for inspector's qualifications, inspection reporting procedures, and structural analysis for load capacity of bridges.

c. Improved Roadsides

- (1) Curbs: Shall be kept in repair by cleaning, patching, lifting, and aligning.
- (2) Sidewalks: Shall be kept in repair by cleaning, patching, lifting, aligning, and regrading if of gravel or other non-cemented material.
- (3) Lawn or Grass Areas: Shall be kept mowed, watered, edges trimmed, and the watering operations shall not flood or sprinkle on the roadway.
- (4) Trees and Plantings: Shall be kept trimmed with dead material removed and hazardous limbs pruned. This agreement shall not be construed as restricting, prohibiting or otherwise relieving the City of the responsibility for inspection and upkeep of trees in a manner that will insure maximum safety to both vehicular and pedestrian traffic or to restrict or relieve the City from following the same policy and procedure generally followed by it with respect to streets of the City in the matter of requiring sidewalk repairs and control of vegetation to be made by or at the expense of abutting owners who are under legal obligation to perform such work.
- (5) Benches and Planters: Shall be kept in repair by cleaning, patching, aligning, and painting.

d. **Unimproved Roadsides**

- (1) Ditchings: Foreslopes, backslopes, and ditches shall be bladed and ditched regularly as required to keep as near as possible to the original typical cross section.
- (2) Cleaning: Foreslopes and backslopes shall be mowed as required. Trees and shrubs shall be kept trimmed, dead material removed and hazardous limbs pruned, waterways shall be kept free of debris.

e. **Traffic Control Devices**

Traffic control devices installed and maintained on the urban extensions of the State Highway System shall be in conformance with the recommendations and specifications of the current *Manual on Uniform Traffic Control Devices for Streets and Highways* as approved by the American Association of State Highway and Transportation Officials (AASHTO) and as adopted by the Idaho Transportation Department. The maintenance to be performed on these items shall consist of furnishing all necessary labor, material, services, and equipment to install, replace, operate, and/or repair in accordance with this agreement.

All traffic control devices installed inside the full control of access limits of the Interstate Highway System shall be the responsibility of the State.

- (1) Route Guide Signing: This includes all official designation guide signs at junctions of the urban extensions of the State Highway System, all entering community signs and all U.S. or State Highway System route markers necessary to properly identify and keep the motorist sure of the routes.
- (2) Other Guide Signs: This includes all other guide signs of an informational nature identifying streets, city parks, landmarks, and items of geographical or cultural interest that the community desires to sign.
- (3) Warning Signs: These will include all signs used to indicate conditions that are actually or potentially hazardous to users of the highway or street.
- (4) Speed Signs: These will include all regulatory signs to indicate speed limits that have been designated in accordance with statutory provisions.
- (5) Other Regulatory Signs: These will include all regulatory signs, other than the speed sign and lane control sign which are used to indicate the required method of traffic movement or use of the public highway or street.
- (6) Highway Lighting: This includes all fixed illumination of the roadway or sidewalks for purposes of providing better visibility of persons, vehicles or roadway features. All highway lighting shall be installed and maintained in accordance with current policies of the State. Maintenance shall include all upkeep of supports, interconnecting service, electrical energy costs, cleaning, lamp renewal, and associated labor and material costs required to maintain the lighting system in continuous nighttime operation.
- (7) Lane-Line Markings: These will include those lines dividing the roadway between traffic moving in opposite directions, lane-lines separating two or more lanes of traffic moving in the same direction, painted channelization, pavement edge markings, and no passing barrier lines where required.
- (8) Other Pavement Markings: These include all stop lines, crosswalk lines, parking space limits and word and symbol marking set into or applied upon the pavement surface or curbing or objects within or adjacent to the roadway for the purpose of regulating or warning traffic.

14. ENCROACHMENT PERMITS

If the State delegates authority to issue encroachment permits to the City, the authority shall pertain to all parts of the highway or street throughout the particular length indicated under Section 17 and/or 17-a of this agreement. Authority to issue encroachment permits shall not be assigned to the City unless they have adequate ordinances governing the encroachments together with an administrative organization and procedure capable of enforcing the ordinances.

Permits shall be issued on a form provided by the State and the City will furnish a copy of each permit to the State. The City agrees to follow current policies of the State regarding encroachment unless the City, by ordinance or other regulation, imposes more restrictive regulations as stated below. Prior approval of the State shall be secured before any permit is issued for the original installation of any utility line, driveway or other permanent encroachment within the highway right-of-way.

If the City, by ordinance or other regulation, imposes more restrictive regulations and requirements regarding signs, marquees and/or driveways than above set forth or as provided in current State policies, nothing in these provisions shall be construed to prevent the City from enforcing such restrictive regulations in the granting or refusing of permits with respect to any State Highway. Where authority to issue encroachment permits is retained by the State, all local ordinances which are more restrictive than State policy will be observed. When authority to issue Encroachment permits is retained by the State, approval of the City will be secured prior to the issuance of a permit. State permit forms will be used and a copy will be forwarded to the City for its record.

The City or State shall comply with its usual policy with respect to collecting costs from permittees in such cases as fees or charges are made by the City or State for encroachment work on streets or highways.

No signs, billboards or structures other than those authorized and installed by the State or the City as necessary for the regulating, warning, and guiding of traffic shall be permitted within or to overhang the right-of-way of any State Highway, except in accordance with these provisions:

- a. Signs or marquees extending over the sidewalk and right-of-way may be installed on a permitted basis in business districts only, subject to the following restrictions:
 - No sign or marquee shall be permitted to project over the roadway nor to extend beyond a vertical line located 18 inches outside the inside face of the curb.
 - Signs extending over the sidewalk area shall have no part thereof less than 12 feet above sidewalk or ground level. Marquees extending over the sidewalk area shall have no part thereof less than eight feet above sidewalk or ground level.
- b. Displays or signs overhanging the right-of-way may be authorized on a permit basis only outside of business districts when the display is placed flat against and supported by the building and providing it does not extend more than 12 inches into the right-of-way.
- c. All signs and marquees shall conform to the city building and/or sign code excepting that minimum clearance requirements as herein specified must be complied with.

They shall at all times be maintained in a good appearing and structurally safe condition. Any existing sign or marquee suspended or projected over any portion of State Highway right-of-way, which constitutes a hazard, shall be immediately repaired or removed.

- d. Signs or displays will not be permitted which resemble, hide, or because of their color, interfere with the effectiveness of traffic signals and other traffic control devices. Illuminated signs or displays containing red, yellow, or green lights will not be permitted to overhang the right-of-way.

- e. Temporary municipal decorations may be installed and suspended over the State Highway on a permit basis only. They shall not be permitted in locations that interfere with the visibility and effectiveness of traffic control devices.

It is understood that none of the provisions listed above (a. to e. inclusive) will be in conflict the Beautification of Highways Act of 1966, *Idaho Code, Section 40, Chapter 28.*

- f. Use of state highway right-of-way for benches, planters, and trees is subject to the following conditions:
 - Benches, planters, and trees must be at least 18 inches from the face of the curb. When benches, planters, and trees are placed on sidewalks, there must be a four-foot open space for pedestrians and bicyclists measured at a right angle from the edge of the sidewalk, or as an alternative, spacing that meets city-approved standards.
 - Benches, planters, and trees should not obstruct crosswalks or wheelchair ramps, or force pedestrians into the street by their placement.
 - Benches, planters, and trees should not be placed so as to impede the sight distance of vehicles using the highway.
 - Benches, planters, and trees shall not bear markings or signs that resemble official traffic signs.
 - Cities allowing benches, planters, and trees on state highway right-of-way agree to indemnify, defend regardless of outcome, and hold harmless, ITD from all accidents or occurrences resulting in damage to property, injury, or loss of life related to bench placement on highway right-of-way within the city.

15. TRANSPORTATION PERMITS

Transportation permits will be required on State Highways for all vehicles and their loads that exceed legal limitations. If authority to issue transportation permits is delegated to the City, such authority shall pertain only to travel that originates and terminates within the City corporate limits.

16. ROUTE DESCRIPTION

<u>Route No.</u>	<u>Milepost</u>	<u>Length Miles</u>	<u>Description of Routing</u>
SH-41	38.65-38.92	~0.27	Extending North on SH 41 from 4 th St. to Pine St; the west pedestrian sidewalk and ADA facilities.

17. **DELEGATION OF MAINTENANCE**

The maintenance work to be performed by the City or State shall conform to the provisions hereof and shall include those operations as hereinafter indicated.

MAINTENANCE FUNCTION	AGENCY TO PERFORM WORK
	SH 41, from 4 th St to Pine St Sidewalk on west side.

18. DELEGATION OF COSTS

All agencies shall bear all costs of maintenance obligations assigned to them under this agreement.

1. The pedestrian sidewalk is on the west side of State Highway 41 in the state of Washington and within the city limits of Newport, Washington will retain ownership of the that right of way, including the portion in which the sidewalk will exist.

19. SUBSEQUENT IMPROVEMENTS

When a highway section or portion thereof is improved to urban standards, i.e., with curbs, sidewalks, etc., the delegation of maintenance shall automatically change to conform to the provisions as provided for similar sections under this agreement.

1. The City, will Except as otherwise stated in this agreement, perform all day-to-day maintenance, long-term maintenance and capital improvements, if any, of the approximate 1450' of sidewalk on the west side of State Highway 41.

20. TERM OF AGREEMENT

This agreement shall become effective August 06, 2018 and shall remain in full force and effect until amended or terminated.

The agreement as above may be amended upon the mutual consent of the parties thereto.

The agreement as above may be terminated at any time upon 30 days' written notice by either party thereof to the other.

IN WITNESS WHEREOF, the parties have set their hands the day and year first above written.
